" PRODESSE CIVIBUS."

Vol. 35. PITTSBURGH. TUESDAY MORNING, NOVEMBER 30, 1819. New Series, No. 1 6 4

PUBLISHED (EVERY TUESDAY AND FRIDAY) BY JOHN I. SCULL & MORGAN NEVILLE, IN Fourth Street, between Market and Wood Streets—at $ 4 per Annum.

Town of PALERMO.

THE scite of this Town is on the bank of the Ohio river in Union county, state of Kentucky, immediately opposite the mouth of the Saline river, in the state of Illinois.

The Sale of Lots

will take place on the 20th dav of October next, under the directions of the Commissioners appointed by the Court of Union county, and will continue from day to day, till Three Hundred are disposed of

THE TERMS OF SALE

will be one fourth down, one fourth in nine, one fourth in eighteen, and one fourth in twenty four months, with a deed of trust to secure the payment.

There is no situation on the Ohio between its source and mouth (with the exception of Louisville) which combines more or greater advantages than

PALERMO

—Union is allowed to be the most fertile county south of Green river, and the whole section of country between the Green and Cumberland rivers is well known to be peculiarly adapted to the culture of Tobacco than any other part of Kentucky. The population is increasing most rapidly, and by many of the most respectable and genteel families from Virginia, North Carolina and she old settled parts of Kentucky. This town is about 1200 miles above New-Orleans and lies in the direct course to Illinois, Missouri, Arkansaw, Kaskaskia and Red River countries, and shortens the distance at least thirty miles instead of going by Shawanee-town. In its immediate neighbourhood, are very large bodies of the richest land in the state—it is about 6 miles by water from the United States' Salt Works, and must become the deposit for the salt wanted in the adjacent counties of Kentucky, and a considerable portion of Tennesee.

PALERMO

is destined to become one of the greatest places on the whole river for steam works, having an inexhaustible coal mine within half a mile of the river, and the coal not a foot below the surface, and also within three or four miles of the town one of the richest ore banks in the western country.

PALERMO

possesses a great advantage over every other situation on the river above it, that steam-boats and others can at almost all seasons of the year come from and return to New-Orleans, there being never less than 12 feet water at its banks; the want of which advantage was severely felt from Fitts- of which places an immense amount of goods was detained on account of the lowness of the water from September to December. An importing house at this place, getting goods from Baltimore, New-York or from Europe direct by way of New-Orleans, and having one or two branch steam-boats, drawing not more than from two to two and an half feet water, would make incalculable profits by supplying the country as high as Louisville and up the different tributary streams of the Ohio with merchandize. This town is laid off on a beautiful plain or level extending from the river to the foot of the Curlew Hills, a distance of nearly a mile, and commands a fine view of the Ohio and Saline rivers.

Encouragement to Mechanics to settle in PALERMO;

Fifty Lots

Will be given gratis in fee simple, (including those given to the acting Commissioners) also the use of pit coal for five years, for fuel, the use of an acre lot for five years for a garden, timber for the interior of a two story house building stone from the Curlew hills, on condition that the grantee build and completely finish in two years, a two story house aforesaid of brick or stone; the same privileges will be extented to purchasers at the first sale, but to no others. The situation is peculiarly well calculated for an industrious and prudent mechanic to realize a fortune in a short time; provisions are remarkably low, wages uncommonly high, and the savings of a few months can at any time be invested in the public lands by crossing over to Illinois, Indiana or Missouri, which will increase annually for years to come from 25 to 30 per cent.

PALERMO

is very healthy, well watered by a number of the purest springs, and at a distance of about eighteen miles are some of the most efficacious *White Sulphur* and *Salt Sulphur Springs* in the Western country, which are much resorted to. At the same time will be leased for a term of years, from

15 to 20 FARMS

of 275 ACRES each, of as rich lands as the state affords, adjoining the town; and every stick of wood, every fowl, pig, shoat, lamb, mutton, vegetable, pound of butter or pint of milk that the farmer can spare will find a certain and ready market from the steam boats.

The following trades would meet with most encouragement, viz. Brick-makers, Brick layers, Carpenters, Black-smiths, Wheelwrights, Coopers, Cabiner makers, Tanners & Curriers, Shoemakers, Hatters and Tailors. None however need apply except such as are masters of their trades and sober and industrious. Any letters directed to the subscriber at Frankfort, Ken. (post paid) will be duly attended to.

I WILL SELL,

and take stock of the Farmers & Mechanics Ban of Pittsburgh in payment,

NINE ACRES of ground on the bank of the Allegheny river, opposite Pittsburgh, and about 200 yards below Robinson's Ferry—Also a Lot in Mechanic's Retreat. This property will be sold cheap.

JOHN SCULL.

Pittsburgh, July 20, 1819.

N. B. Those persons indebted to me since I declined the printing business in August, 1816, are once more requested to make payment. A failure in one month, from this date, will *positively* subject them to costs and trouble.

CASH.

I HAVE determined to sell my FARM, at the fork of Chartier's creek, in the county of Washington, fifteen miles from Pittsburgh, consisting of about 214 acres, so low for CASH as to make it a great object for any one having the command of money. Its advantages in point of soil, timber, water, sugar camps, neighbourhood, proximity to mills, markets, the turnpike road from Washington to Pittsburgh, meeting houses and an excellent college, are well known —Added to these, some enterprising individuals of capital, are now boring for Salt within a quarter of a mile of it, at a lick which has produced salt from the surface, so that no doubt is entertained of their success. This will be useful, not only to the vicinity in general, but it will be of peculiar benefit to the tract hereby offered for sale, as it will afford a constant market for the stone coal with which the land abounds. I will give the purchaser a PATENT in my own name and a *general warranty* deed. The title is indisputable. I am willing to dispose of eight or ten other tracts, on moderate terms.

The Ohio River.

PUBLIC NOTICE is hereby given that proposals will be received by the subscribers, for improving the navigation of the Ohio River from the city of Pittsburgh to the line of the state of Pennsylvania, a distance of about 40 miles, from this time until the first of December next.

The contemplated improvement will consist in removing the large stones from the bed of the river, and in cutting an artificial channel through the shoals and ripples of a certain depth and width. The work necessary to effect this object would be of a very simple kind. The stones lying in the channel are not attached to the bed of the river—none of them are so large as to require to be blown, and the artificial channel would have to be opened through sand and gravel.

The subscribers reside in Pittsburgh, and would be happy to afford every information upon the subject to any enterprizing persons disposed to undertake the work.

TUESDAY MORNING, NOV. 30, 1819.

'Monsieur Tonson come again !'

The extreme embarrassment of the times forces us once more to appeal to the justice of those against whom we have claims. Our paper-maker and a host of other friends, have become so extremely ungenteel as to give us no rest from their importunities, and we have no mode of getting clear of their clamour but by demanding our rights from our patrons and advertising customers.—Our distant subscribers are assured that we feel highly honoured by being permitted to send them our paper, but honour now a days will not pay board, or buy ink. We must therefore request them to transmit their dues immediately, as otherwise we shall be obliged to do two very disagreeable things, viz. To strike off their names and to bring suit. Our city debtors are informed that they will be waited on in the course of this and next week to assist us in the present dilemma.

It is said that Mr. Forsyth has made a peremptory demand on behalf of his Government, for a considerable number of American prisoners in Spanish prisons who did not enter into the Patriot service, but were trepanned by designing officers under false pretences; and that he has required a statement of charges against others.—*Balt. Pap.*

Norfolk, Va Nov. 15.

The squadron under the command of Commodore Morris, consisting of the frigates Constellation, Captain J. B. Nicholson, (flag ship) & John Adams, Captain Wadsworth, after being detained several days on account of a remarkably smoky atmosphere which has so long prevailed in this neighbourhood, got under way in Hampton Roads on Thursday last, with the wind. S. by E. and before night were clear of the Capes.

Harry Lewis and Nathaniel Stevens. confined in our jail for the robbery of Mr. Wise's shop, have made full confession of the fact. They were yesterday bro't before the court, when his honour, judge YOUNG after a very impressive address, sentenced them to pay a fine of $300 to the commonwealth, and to be confined for three years at hard labour, in the Penitentiary of this state. Information has been received from Baltimore, leaving little room to doubt that Lewis lately escaped from the penitentiary of that city.

[*Greensburgh Gazette.*

SENECA OIL.

We are informed that Mr. John Gibson, formerly of this town, has, in boring for Salt-water near Georgetown, on the Conemaugh river, struck upon a copious supply of Seneca Oil, which our informant says rises from the bottom of the well, now 207 feet deep, and floats on the water at the top. He supposes that a barrel per day might be procured!

[*Ibid.*

On the 13th and 14th of Oct. a violent *Hurricane* was felt in the windward Islands, equally as destructive to Barbadoes Grenada, St. Lucie, &c as the Sept. gale was to St. Thomas and St. Barts. Accounts had reached St. Thomas of the ravages occasioned to the shipping and plantations in those places. Nothing was felt at St. Thomas of the last gale, but the swelling of the sea indicated a very violent blow at no great distance The weather during the latter part of October to the middle of November has been so smoky and thick at sea, in those latitudes that it was with difficulty the sun could be seen. The smoke of wood could be distinctly smelt, and at times quantities of dead fish were discovered floating on the surface of the sea.

BOSTON GLASS MANUFACTORY.

A correspondent has furnished us with the following notice of the Boston Glass Factory. The articles manufactured in this establishment, so highly honourable to our country, are said to be far superior in texture and beauty to European fabrics of this description—for a specimen of which, we refer to the elegant Urn lately displayed in this city.

The New England Glass Manufactory is situated at Leachmere Point, near Boston, & covers 100,000 feet of ground, nd gives employment to 96 persons; principal part of whom have families and earn from $300 to 2000 dolls. each per year—70,000 dollars has been expended in experiments before glass was made in any quantity — They are now enabled to make glass of equal quality to any imported, and ther extensive cutting establishment can enable them to supply the demand of rich cut glass for this country The heavy bounty the British government gives to the exporter of glass from their country, operates very severely against this factory, it being on plain glass more than our duty, freight and shipping charges—consequently the British government pays the United States, duties and other expences. It is often the case that the bounty is more than the value of the glass—it is to be understood that this bounty is in addition of the drawback of the excise duty. The excise duty for home consumption is 98s. per cwt. but if it is exported, the 98s. is returned, and the bounty of 26s is also allowed. This encouragement induces the manufacturer to become the exporting merchant, to the exclusion of our own, and a very small part of the large quantity of glass that has been forced into this country, has passed through American merchant's hands. It is a notorious fact, that in every sea port there is a British agent for glass manufactures, who receives the American merchant's order, imports and enters the glass through our Custom Houses; and the merchants find it to their interest to allow the British agent to do the customary duties of his avocation—no evil results to government by this bounty, as our laws require the ad valorem duty to be levied on the fair cost of the goods *in* the country they came from—Now as the bounty of 26s stg. per cwt. is deducted from the invoice cost, it lessens the value 33 *a* 40 per cent and often 60 per cent; and this bounty can only be drawn, upon the goods being out of the country, and consequently the prices are not the fair value *in the* country they came from. Our country abounds in materials to make glass, requires no foreign material of the smallest value, & in fact the whole is dug from our soil, and places a few years since not considered worth 10 dollars, now bring to the owner an annual income of many hundreds.—This factory pay for labor alone 70 or 80,000 dollars per year, and is dispersed among a large number in various parts of the Union, who depend upon the institution alone for a living—It is certainly a satisfaction to a lady who purchases a piece of glass made in this country, that she has contributed to the support of several families, who otherwise might require aid from charitable societies.

From the Salem Register.

GENERAL STARK.

We heard lately from the venerable Gen. John Stark. He was still living in the 92d year of his age. He lost his wife about five years from the present time, but has since continued in the family of a son, in his own mansion, about one mile from the bridge at the Amoseg Falls of the Merrimac, in Manchester, N. H. and above the bridge on the river, about 45 miles from Salem, and 15 from Concord. this present place of residence has been that of his life, and was part of his inheritance. The mansion house is large, and in the active line of the General possessed many conveniences, and displayed great hospitality. His descendants have the health and hardihood which characterised the patriarch now living. The General was born in that part of Londonderry, called Derryfield, now Manchester, N. H. in 1728. His father was from Dunbarton in Scotland, but married in the north of Ireland, and was educated at Edinburg University, and came early to America. John, the present general, was at the age of 21 years, when he was taken by the Indians at Baker's river, and lived at St. Francis river with the Indians of that name, till he was redeemed. He was afterwards sent out to observe the French, and was a lieutenant under Robert Rogers, in his company of Rangers, and when Rogers was promoted, succeeded him in the command of the company. After the war he returned to Derryfield and there continued till 1775, when he went on with a thousand men, and became col. of the first regiment of his own State. On the heights of Charlestown he had the first honors. He went with Gates on the northern expedition with the highest reputation. He was afterwards with Gen. Washington in Pennsylvania, and in the action of Trenton. The circumstances of his history we shall receive in due time from a son who is possessed of ample documents for the purpose. He promised the Legislature of New Hampshire he should live for the service of his country, and never forsake its cause.

ST. HELENA.

A letter from St. Helena quotes the prices of certain articles, in the month of July last, as follows, viz. Beef, mutton, and veal, 1s 5d a pound; a turkey 30s; a goose, 21s; a grown fowl 10s; a chicken 5s; a duck 19s; eggs might be had so low as 5s per dozen; cabbages (in *abundance* we must suppose) at 9d a piece; and turnips and carrots 1s per dozen. Bread was 5d per pound, and very good Cape Madeira wine was seven shillings and sixpense per gallon! Buonaparte was well, and his palace nearly finished.

It is believed in certain quarters, that the object of the expedition of admiral sir T. Hardy, is to preserve an undisturbed communication to British trading vessels with all the ports of South America, and to prevent the blockade of such ports (to which otherwise British merchantmen would have access) either by Spanish or Independent flags. If this opinion be founded on fact, it may lead to important consequences, as the measures said to be taken by lord Cochrane would bring him within the rule of the gallant admiral's instructions. *Lon. Pap.*

GENEVA, Aug. 22.

The exaltation of our puritans, and their audacity, increases rapidly. The spread among the people numbers of fanatical works. Their exterior and their language recall to us their predecessors, the puritans of Cromwell's time.—They speak only by the will of the *spirit* Their chief, Malon, who is not wanting in this, has succeeded in drawing to his house a certain number of opulent Englishmen. If things continue on the present footing, the *ultra Cavanistic* clergy will finish by being richly endowed. We hear nothing more of Mr. Drummond, but that he sends his guineas to the puritans. He has continued writing to the professors and pastors, summoning them to be converted to Christianity.

A dividend of 5 per cent. for the half year ending Oct. 10, has been declared by the Bank of England. The law requiring that bank to resume cash payments at certain specified periods, has depressed its stock, but will, as the Stockholders appear to think, render the institution more solid and independent of the British ministry, and eventually redound to its interests. *Phil pap.*

SINGULAR DISCOVERY.

The Nuremburgh Correspondent, of the 29th ult. gives the following as authentic :—A hatmaker of Cassel, named Maulich, has discovered a method of manufacturing felt, so as to make it impenetrable to the stroke of the sabre, in the hands of the strongest cuirassier, and even to a musket ball. The fact has been proved by numerous experiments. He offered to discover the secret to our government for a suitable recompense; but no attention was paid to it. A report of this invention, however, reached St. Petersburgh, and Mr. Maulich was invited to present himself to the Emperor of Russia, at Aix-la-Chapelle. The Russian generals being satisfied of the truth of his assertions, he has been invited to establish in Russia a manufactory of this felt, upon the most liberal terms.'

LONDON, Sept. 27.

A SNUG PARTY.

The friends of Mr. Astley, the unsuccessful candidate at the late Wilts election, gave a dinner at Salisbury on Friday last, to the poor of that city, friends to their cause, which was held on a green, at the back of the house of J. Morris, Esq. *Two thousand two hundred* persons sat down to a plentiful dinner of most excellent roast and boiled beef, vegetables of all descriptions, and a good store of plumb pudding. Beside every plate stood a two penny loaf. On the table were placed a thousand new tin cups (made for the occasion) indented with "A ley for ever," and which were given to the people. To every person was allotted a quart of ale and a quart of *stingo*. The booth which extended nearly round the field, was in length 800 feet; the width was sufficient to admit of two rows of tables, four rows of persons, and ample space for those who were desirous of witnessing the gratifying scene to view it with comfort. Mr. Alderman Goddard presided, and a great number of highly respectable characters were present. The whole was conducted with the utmost order and regularity.

The accounts published concerning the success of Messrs. PERKINS & Co. in England are much exaggerated; no engagement had been entered into at the period of the latest advices, nor were they to exhibit their specimens before the *first of November*. They have had of course, many interviews with the gentlemen interested in their work, and the applause which they obtained was very flattering; they had completed a border scroll for a *bank note*, which contained the *whole of the charter of the Bank of England*, the letters so small as to require a magnifier to read; the execution of this was justly considered most extraordinary, and the more extraordinary, as they could produce by their method, *copper plate engravings*, as many and as rapidly, as by other methods paper notes are printed The prospects of Mr. PERKINS were good, but not positively certain.

REVOLUTIONARY!

THE SPIRIT OF SEVENTY SIX!

Another hero of the Revolution has fallen—*before the shrine of Hymen!*—but even in his fall he triumphed!—Thus runs the proud memorial of his glory :—On the 25th ult. was united in the holy bands of Matrimony, by John McGehee, Esq. Mr. DAVID HODGE, aged *one hundred and two years, and two months* to Miss ELIZABETH BAILEY, aged forty years, both of Columbia county state of Georgia. Mr. Hodge was at Braddock's defeat and served throughout the whole period of the revolutionary war.

BITE OF THE RATTLE SNAKE.

The very particular account of the sickness and death of Mrs. Hontzberger, published some time ago in our paper, has been copied into most of the papers, and excited some attention In the Sunbury Times, we find the following article on the subject :

Mr. *Printer*.—Reading an interesting account of the manner in which Mrs. Hontsberger, near Greensburgh, Pa was affected by the bite of a Rattle-snake, I regretted that a remedy against the venom of this reptile, long known, was not applied. The expressed juice of the plant called white horehound, (*Marrubium of Linnæus*) copiously administered to the patient, it is confidently believed will effect a speedy and absolute cure.

The writer, it is true, has never had it in his power to witness its effects on a human being, but he has known many instances of beasts being not only relieved, but entirely cured by its internal application. Not long since, a horse bitten below the fetlock joint by a rattle-snake, and apparently, in great agony, viz much swollen, unable to walk, his jaws locked, and his life despaired of was cured by this plant *alone*. Bruise the plant, & administer to an adult, from half a gill to a gill of the expressed juice, repeating the dose until the alarming symptoms begin to subside. To a horse, a pint of the juice should be given at a time, by forcing it down his throat, from the mouth of the bottle.—The effects of this remedy have been so powerful and decisive, when it has been used, that it is earnestly recommended for trial, by those who receive a similar unfortunate bite. PITTSBURGH.

Tuesday, Nov. 30, 1819.

We have more than once had occasion to mention the town of Wheeling, in the course of our discussions on the subject of the Cumberland Road. As it was generally introduced as being arrayed in opposition to Pittsburgh, it may have appeared that we felt hostile to this place. We cannot forbear taking an opportunity of disclaiming any such feelings. Our publications on this question were generally in refutation of unfounded and very often absurd assertions and reports coming from the west and from the south, such as that Wheeling was nearer to Baltimore and Philadelphia than Pittsburgh; that the Ohio was more navigable below Wheeling than above, & such like stuff; in repelling these falsehoods we beg we shall not be considered as inimical to Wheeling or its inhabitants. We are too well acquainted with the advantages and resources of Pittsburgh to suffer ourselves for an instant to suppose that she could be *permanently* injured by any event; our remarks were intended to prevent it possible her undergoing even a temporary deprivation or inconvenience. We wished also to bring the subject, as often as possible to the minds of our legislators. If Wheeling, or any of the towns on the river is to rise at the expense of Pittsburgh, it must be from their local situation and the enterprize of their citizens combined Now if there be a town possessing, local superiority nothing that can be said in the columns of a newspaper can or ought to shake this superiority; if there be a village or town possessing enterprize and ambition, we can truly say that it has the advantage of Pittsburgh in this respect, and far, very far be it from us to attack it for possessing these admirable municipal virtues; we would honour it for them, and most heartily do we wish success to them even though Pittsburgh should thereby be reduced to what Babylon now is.

We suspect that injustice has in some measure been done to a few of the individuals of Wheeling on the subject of the great turnpike; we however have had no agency in this offence. One of the parties who considers himself agrieved has promised us some explanatory documents; as soon as we receive them we will do that justice which we conceive our editorial situation enjoins upon us.

FROM SPAIN.

We learn from captain Hudson, who arrived yesterday from Gibraltar, which place he left on the 13th ult. that captain Reid of the Hornet, was still at Madrid, but was expected at Malaga on the 20th whether the hornet was about to proceed receive him on board, and thence proed directly for the U. States. It was derstood that on the receipt of the despatches by capt. Reid, the American minister intimated to the Spanish government that he would then await their determination as to the final ratification of the treaty, for the period of nine days—it was generally believed it would not then be ratified, and that Mr Forsyth would demand his passports, and return home.

United States troops near Florida.

Letters from Wasmington, state, that orders have been given for the concentration of troops at St. Mary's, on one side, and at Mobile, on the other side of the Floridas.—Congress when met, may point out their future line of march.

Amer. Daily Adv

A letter noticing the effects of the late awful hurricane in the West Indies, states that upwards of 200 persons were killed, from the falling of houses at St. Bartholomews.

U. S. ARMY MOVING SOUTH.

A vessel sailed from Philad. on the 8th inst. bound to St. Mary's having on board 500 United States troops; other detachments were to follow. A considerable body, which has been recruited in Boston, under Col. Brooke, are preparing to embark for a southern destination. These movements must necessarily be connected with the Florida questions.

LORD COCHRAN'S SEIZURE.

The most authentic account we have, of the seizure of the proceeds of the Am. ship Macedonian's cargo by Lord Cochran, states, "That her commander, capt. Smith, had sold his cargo to the Phillippine Company, conditionally that the specie, 145, 000 dlls. should be paid *on board* the Macedonian, at Callao, at the risk of the purchasers; but previous to the completion of this condition, the port of Callao was blockaded; and the neutral vessels ordered out, with the permission to go to the port of Guermez, a distance of about 70 leagues North of Lima. In this situation, capt. Smith released the purchaser of his cargo from their obligation of delivering the specie on board his ship, and sent her to the permitted port; remaining behind, and taking the money into his own hands for the purpose of transporting the same, and to Guermez, thus acting for himself as the agent of his own, and his Em. ployers' property. While prosecuting this journey, Lord Cochran, being informed of the transaction, sent a party of armed men on shore, and forcibly took from capt. Smith the whole of his specie."—This outrage, it is understood, has been officially communicated to our government; and there can be no doubt, but some prompt and efficient measures will eb adopted, to demand full and ample satisfaction for the same.

The present armed force under Lord Cochran, consists of one 60 gun ship, one 52, one 48, and three others 24, 18, 18—These are fully equipped. Besides which he has, (not epuipped) two 36 gun frigates 1 vessel of 18, one of 16, and one of 10 guns; mounting in the whole 356 guns. The officers are principally experienced naval commanders; and the crews composed of Englishmen, Americans and Chilians.

It gives us much pain to state, that a letter received by yesterday's mail, from Raleigh, gives information, which there is to be much reason to believe substantially correct, of the dangerous illness of the hon. J. C. Calhoun, Secretary of War, in Rockingham county, North Carolina, on his return to the seat of government.

Nat. Int.

Moulins, Nov. 10—The canal commissioners are now in this town; they came in a boat as far as to the line of this county, but will not be able to proceed much further till the Limestone creek is let in; the Chatenango and Beaver creeks not affording a sufficiency of water.—They probably will be able to proceed to Salina in a few days.

DARK DAYS.

ALBANY, Nov. 10.—Yesterday we had an uncommonly dark day—at about daylight and at different times in the forenoon, we had thunder and lightning—some rain also in the morning, and about three o'clock a pretty severe fall of hail; during which, and for about an hour afterwards, it was necessary to have lighted candles in our houses in order to attend to almost any kind of business. From three o'clock in the afternoon we were obliged to use candles in our printing office.—Throughout the whole day the atmosphere was overcast, thick and hazy, and of a yellowish hue, somewhat resembling the dark day in the revolution (1781) The wind was from the south, with appearances of an approaching storm. *Daily Adv.*

A CURIOUS ROBBERY.

On the 27th of September last, the house of John Lyons, jr. in the vicinity of New Orleans, was forcibly entered, in the night, by fourteen armed villians, with their faces blacked. After tying Mr. Lyons, his wife, and children, and threatening their lives if they made any noise or resistance, they ransacked the house, and carried off all the linen and wearing apparel they could lay their hands on. Not content with the plunder of goods, they seized and took with them a whole family of blacks, belonging to Mr. Lyons, consisting in all of ten persons, viz.—[illegible] his wife Flora, two sons and six daughters, the youngest only four years old. Five hundred dollars are offered for the recovery of the slaves.

NORFOLK, Nov. 3.—In consequence of the fires somewhere, (it is said in the Dismal Swamp) our atmosphere is so beclouded, and has been so for several days, that no object at any considerable distance can be discerned. The James River steam boats have neither of them arrived yet, (9 o'clock) and no doubt the delay proceeds from a difficulty in finding their way along.—Vessels that arrived yesterday from the northward, state, that the smoke is not so very thick along the coast, but that there is considerable of it as low down as the Capes. It is so intensely thick, that in walking the streets it is truly offensive to the eyes. The winds which have lately prevailed were from S. E. to S. W. which set the smoke directly uponus.—We anxiously wait a north easter to drive back such an unwelcome visitant. *Telegraph.*

It was so dark in Newburyport, on Tuesday last, at meridian, that lighted candles were necessary in many rooms. In Boston candles were lighted in the Banks and public offices.

FIRE IN NEW JERSEY.—The Great Swamp, about 10 miles west of Springfield, New Jersey, which caught fire about four weeks since, is still burning, and about 3,000 acres of timber have been destroyed. The inhabitants who reside near the Swamp suffer very much from the smoke.

Extract of a letter from a gentleman of the first respectability, dated Fort Montgomery, near Blakely, (Alabama,) 17th Oct.

"The Sandusky and sloop David are both discharging at Blakely. My friend came direct to that place with his goods owing to the continuance of the yellow fever at Mobile. As I am not a believer in contagion, I went into Mobile last Thursday, and found it one of the most distressing looking towns I ever beheld. But three stores were then open, viz. McCusker & Co. Smith & Whitehead, & Hallett's. A few evenings ago, a gang of fellows broke open Judson's and some other stores, and took off what specie had been collected for the bank. I would still advise your friends not to land at Mobile till late in December, as Dr Ludlow is of opinion that the fever will operate on strangers till late. I suppose from 300 to 400 have died at Mobile. Among these, since my last, are Dr. Kirby, Dr. Lawton and wife, old Mr. Heming, capt. Arthur Post. Mrs. Ogden, Mrs. Sack Mrs. Lewis, Gad F Willis, Mr. Sanderson, editor of Gazette, and others, too tedious to mention.

Col. Hopkins discharged 43 labourers in July or August, only three of whom were alive last Thursday. Blakely has been quite healthy, owing, as I suppose, to the prevalence of northerly winds."

Irun, Spain, Sept. 18.——With regard to the Florida treaty, some new facts come out daily. Among other extraordinary circumstances the Spanish minister, required of Mr. Forsyth a categorical answer, whether or not he was authorised, in case his Catholic Majesty agreed to ratify the Treaty, to annex thereto a new article, in which the United States would pledge themselves not to acknowledge the independence of Buenos Ayres. It is understood that the American plenipotentiary readily answered that although his instructions gave him no powers to enter into new articles, but merely to urge the ratification of an instrument that already wore a perfect and official form; yet, nevertheless, he felt himself perfectly authorised to say, in the name of his government, that such a proposition was totally inadmissible. He further added, that his impressions were, that the U. States would recognize the independence of Buenos Ayres, or any other of the free sections of S. America, which had sufficient strength and stability to warrant such recognition; and the line of policy with regard to the new states of South America, was totally independent of existing relations with Spain. He further informed king Ferdinand's ministers, that nothing but a desire to evince to the world the amicable disposition of the U. States, had prevented him from withdrawing from Madrid the very instant it was notified to him the ratification would not take place; adding that in this spirit of forbearance he should await the final instructions of his government, which he hoped to receive before the end of September. At the close of this interesting and spirited communication, Mr Forsyth assured the Spanish cabinet, that they were not henceforward to consider any one of the conditions of the treaty, as binding on the U. States.

Paris, Sept. 29—Whatever may be the result of the rumors widely circulated and generally accredited, in the political circles of the capital, they have lately acquired so much consistance, that I lose no time in transmitting them to you. The late Ukases of the emperor of Russia, levying on his forty millions of inhabitants one man of 250 produces an increase to his army of 160,000 soldiers, so that the whole mass of his disposable force may be justly calculated at 900,000 men. Great military preparations are observed throughout the whole of Germany; the regiments are receiving their full complement, and the fortresses of Gallacia are being armed with all promptitude. Austria, should it be thought necessary, will be able to open the campaign in the early month of spring. The king of Bavaria has not made any public declaration, but no doubt is entertained that the secret negociations of this court are in unison with its family alliances. The king of Wurtemburg quitted Sturgard yesterday, to concert with the emperor of Russia at Warsaw, in whose views he entirely acquiesces: The other German princes are waiting the impulsion of England, which is supposed to be closely united with the cabinet of Versailles in the measures which it may be judged right to adopt. The German Liberals propogate reports that the emperor of Russia, on his arrival in Warsrw proposes to unite to the kingdom of Poland the Palatinates which are separated from it at the first and second division, to recall Russian garrisons, to abolish corporal punishments, especially the use of the stick in the army, to reduce the taxes, and to remove some of the principal Functionaries, who (according to the Liberals) have incurred the hatred of the nation, by acting with a vigor beyond the law, and beyond their instructions.—*Courier.*

From the N. Y. Daily Advertiser, Nov. 16.

The following is a translation of a letter received by a respectable merchant in this city, from Boyer, President of the Republic of Hayti.

[TRANSLATION.]

LIBERTY—EQUALITY.

Republic of Hayti.

Jean Pierre Boyer, President of Hayti, to Mr. ——, merchant, New York.

I have received, sir, with the liveliest satisfaction, your obliging letter of the 19th of the 6th month of the present year, enclosing an excellent treatise on objection to the use of prize goods, which has been translated and published in the Official Gazette of Government, as you will perceive by a number accompanying this letter. Your principles, sir, are those of the friend of man, and since you are desirous of being useful to that class of the unfortunate descendants of Africans, who groan under oppression, they will know how to evince their gratitude to you as well as to the members of your honorable society. Persevere therefore in your efforts, and assist with your counsel those unfortunate persons, who were under the necessity of seeking an asylum in a country like this, where all men are free and equal in the eye of the law, for the enjoyment of their civil and political rights.

If the emigration of people of color, which it appears to be your wish in the United States, should direct towards the Republic, great benefit would result to all parties. The first, sir, would be the greater convenience for the emigrants, on account of the proximity of the United States to this country, which would make the voyage much shorter and easier. Secondly, the emigrants would find employment on lands already cultivated, which would enable them in less then a year to earn an honorable subsistence. Thirdly, the benefit this country would derive by laborers coming from the United States, as the cultivators would increase in proportion to the quantity of such labor, which would necessarily augment the commerce of the U. States with Hayti, both in import and exports.

I have taken the liberty to send Mr. J. Walker, merchant of this city, two hhds. of brown sugar, my own manufacture, marked C. C. with a request to ship them to you in my name. I beg you will accept of them, sir, and make such use of them as you think proper.—I hope the quality will improve in a short time. All the inhabitants of the Republic are endeavoring to improve the quality of their produce; with time and perseverance they will no doubt succeed.

Nothing shall be wanting on my part, sir, to make my correspondence with you frequent and acceptable, for I hope it will eventuate in humanity ——On receiving coffee of the present crop I will send you some.

Receive the assurances of my most distinguished consideration.

Signed, J. P. BOYER.

CHARLES REDHEFFER.

Though perfectly aware of the prejudices which from various concurring causes prevail against his mechanical invention, cannot submit to be put down by prejudices which do not regard the evidences of the senses, and the evidence of a present demonstration.

The title of a perpetual motion was given to his machinery, not by himself, but by those who having seen it in activity, concluded that a power which gained in a certain ratio, without losing velocity, must possess the property of a perpetual activity within itself; he has recently exhibited the first elements of that power to numerous respectable persons, and thinks it proper to apprise the public that he is preparing a machine, to be sent to the seat of government, and to obtain a patent for this discovery. From some of those who have seen the power developed in experiment, he has obtained the following certificate:

The subscribers have attentively examined a machine constructed by Charles Redheffer, on the 22d inst. and the examination has satisfied their minds that it gains power without the loss of velocity.

William Crawford,

CABINET MAKER,

RESPECTFULLY informs his friends and the public that he has commenced the above business in Fourth, between Market and Wood streets, adjoining the house of Mrs. Wilkins, and that as he is determined to make his work in the best and most fashionable manner, and flatters himself he will obtain a share of public patronage.

All orders from a distance promptly attended to

Henry Bheares,

CHAIR MAKER,

Second, between Wood and Smithfield Streets, at the foot of the Market.

GRATEFUL for past favours, respectfully informs his friends and the public in general, that he has on hand a handsome assortment of FANCY and WINDSOR CHAIRS and SETTEES, which he offers for sale on accommodating terms.

Having determined to execute every article in his line in the best and most fashionable manner, he flatters himself from that conduct and assiduous attention to business, to merit a share of public patronage.

Orders from a distance can be filled with articles of workmanship equal, if not superior to any made here, and perhaps on more moderate terms.

One or two Apprentices wanted to the above business. Boys from the country will be preferred.

Pittsburgh, May 11, 1819.

Pittsburgh Manufacturing Association.

A NUMBER of the Mechanicks and Manufacturers of the City of Pittsburgh and its vicinity, anxious to promote and invigorate that spirit of domestic industry which is so essential to the prosperity of the western country, having entered into an association under the above denomination, inform the public that they have opened a large and convenient Brick Warehouse in Wood Street, between Front and Second Streets, for the reception and sale of the different articles which they manufacture, together with such articles of domestick produce and manufacture as may be deposited for sale, or consigned to their care; and have appointed George Cochran their Chief Clerk or Agent, to whom all orders and communications on the mercantile business of the association, will in future be addressed. They intend to receive, forward and dispose of all goods entrusted to their care, (especially articles of domestick produce and manufacture) on the most reasonable terms, and hope to give satisfaction to those who may please to favour them with their custom and patronage. From the variety and extent of domestic produce and manufactures which may be collected and offered for sale at their Warehouse, with punctuality in paying over the proceeds, and attention to business, a beneficial result is anticipated, as well to the vender as the purchaser.

All orders enclosing the cash for articles manufactured by the members of the association or sold in their Warehouse, will be promptly and faithfully executed, at the lowest wholesale prices, without any charge for commission, and western current notes taken in payment

It is also intended to exchange manufactured articles for country produce and raw materials, such as Iron, Lead, Wool, Cotton, Sugar, Salt, Whiskey, Bacon, Hogs lard, Butter, Cheese, Flaxseed Oil, Hogs Bristles, Linen, Yarn, Rags, &c. for Sale.

To Old Soldiers,

AND UNITED STATES' PENSIONERS.

THE subscriber for many years past has collected the pensions of several United States pensioners —And now offers his services to pensioners who may apply to him.

He draws up the necessary affidavits, powers of attorney, certificates and vouchers, and by the generous aid of humane magistrates and physicans of this city, and good reputable agents in Philadelphia, he is enabled to collect pensions promptly when due, at a very trifling expense.

☞ Liberal advances made when required by pensioners in needy circumstances.
